

Capt. Kingsford-Smith Brings Southern Cross In Safety To New York

Roosevelt Field, New York—Completing his flight from England which had covered a distance of 11,000 miles, Captain Kingsford-Smith brought his famous monoplane "Southern Cross" to a safe landing before a wildly enthusiastic crowd.

He first appeared out of the northern sky, a streak attended by a dozen smaller spars, shortly before 6 o'clock, but passed high above to circulate about the field. After a flight of 12 hours he had flown 1,100 miles from Harbor Grace, Newfoundland, to treat the crowd awaiting to acclaimed him, to a spectacular exhibition of vertical flying before bringing his ship to a perfect landing just short of the big hand-lit entrance, masked behind a high wire fence.

The four men of the "Southern Cross," Captain J. Patrick Saul, Evert Van Dyk, and J. W. Stannage, were neither physically nor mentally fatigued, though they had been flying for 12 hours.

"Deafness" bothered them a bit, from the long endured roaring of the three ancient Wright whirrwind motors, but they were nimble and sober again when they clambered out of the big blue-bodied biplane into the hands of the mob.

"It was a reception that might have reduced lesser men to damp, frightened quietude, for the arraigned metals made no sound but one, so constantly revised all day, broke down utterly and shamelessly."

It had been planned that after the United States had received them, the Nasau County reception committee, the New York City reception committee, and finally Sir Ronald Lindsay, the British ambassador to the United States, would formally greet the flyers.

But instead the police lines failed to hold, the gentlemen of the reception committee gothurst about with no regard for their audience, and the mob, shouting and shouting, burst through the barriers to the boat, which was torn nearly from the back of Henry Allen, the Australian high commissioner to the United States.

It was the wild, hurdy-burly that was to be expected, and was flying field, where there have been many notable shindies between the cops and the citizens.

The visitors, as a result, were merely framed under foot as they stepped down into the noisy crowd, and it was fifteen minutes before the 175 county police under Chief Abraham Skidmore, were brought in to the scene, and compelled to cease showing members of the reception committee and get the flyers to the operations office.

There at last, when the last politician's hand had been shaken and the last handshake exchanged, was graphed in proud proximity to the fliers, the rapidly witting Kingsford Smith, was permitted to receive cablegram from his fiance, Miss Mary Pownall, who had already greeted a couple of his closest friends in this country, and to tell the story of his last great flight to the newspapermen.

It was his last great flight, though his name had been shaken and the last handshake exchanged, was graphed in proud proximity to the fliers, the rapidly witting Kingsford Smith, was permitted to receive cablegram from his fiance, Miss Mary Pownall, who had already greeted a couple of his closest friends in this country, and to tell the story of his last great flight to the newspapermen.

And then that is done will marry in September and give himself to the more humdrum but vastly more profitable business of directing a flying transport service in Australia.

Harbor Grace, Nfld.—Baffled up fast thick as soap and more dangerous than buffering winds, the Southern Cross, veteran of the air, paused here, 1,100 miles short of New York, and the goal aspired to by Captain Kingsford-Smith, daring Australian aviator, and his three companions.

The tiny silver monoplane, its three motors roaring through the night, spanned the North Atlantic in four hours and 35 minutes, and having flown the 2,190 miles from Port Macquarie on the Irish coast, settled down on the morning mists here at 6 a.m. E.S.T.

They had four gallons of gasoline left when they landed, after having flown about for hours lost in the darkness and impenetrable fog. At one time, the Southern Cross was reported past Cape Race, on the southeastern coast of the North American continent. They actually flew several hundred miles farther than the air-line distance from Ireland to Newfoundland.

Thirty Lives Lost In Dynamite Blast

Lightning Strikes Boat In St. Lawrence River

Brockville—Within a bolt of lightning struck their boat and utterly demolished it, 30 men were hurried to their deaths in the waters of the St. Lawrence River here yesterday. Only 12 of a crew of 40 men on board of the vessel are hospital in a state of mere serious condition.

The boat was the "J. P. King," a drift boat owned by J. F. Porter and agents of St. Catherines, Ontario, on a co-operative contract to haul logs across the river port. Lying off Cockburn Island, one of the eastern fringes of the Thousand Island group, the boat was engaged in hauling a shoal when a thunderous boom came from the west.

Suddenly there was a deafening report audible for minutes around. The boat was torn to shreds and sank from the heavens. The boat was struck by the electricity which van down into packed dynamite in the shoal. Literally, the boat was blown to atoms.

During the morning's discussion, Mr. F. P. Alexander, general manager of the Canadian Press, defended the submitted a technical scheme for the creation of a British Empire Press Association. The scheme suggests the establishment of national co-operative news service similar to the Canadian Press, in the various units of the Empire, with a central office in London, through which the national units could exchange editorial news. The association, suggested Mr. Alexander, should "minimize and co-operate from crown to crown, girding the world with a news service owned and controlled by the newspapers of the British Empire."

C. F. Grandell, of the British Unit of the Canadian Press, urged that the Canadian delegation be given a unit of its own in the Empire, and that the Canadian Press be given a seat on the Empire Council.

In further discussion, Lord Burnham observed that the Canadian case was unanswerable, but suggested postponement of the resolution until the Canadian Press could be represented.

H. W. Moore, managing director of the Calgary Herald, then replied that the Canadian delegation was a unit in support of Mr. Norman Smith's resolution, approving the principle of co-operative interchange of news. He urged that the matter should not be postponed.

The conference then voted on the question and the Canadian resolution passed with very few dissentions.

Traffic Problems Discussed

Canadian Good Roads Association holds convention in Toronto

Toronto—Realization of a coast to coast highway network, uniformity of traffic laws and signs in the provinces, elimination of level railway crossings, regulation of speed limits, and the like were the topics of a conference of delegates from all provinces which was held here under the auspices of the Canadian Good Roads Association.

Alberta delegates were Hon. Frank Oliver, advisory officer to the Dominion Railway Board, and W. R. Clubb, Manitoba Minister of Public Works.

Large Attendance Of Tourists At Celebration

Iceland is Entertaining Visitors From Many Nations

Reykjavik, Iceland—Hundreds of tourists from Canada, the United States and Europe are gathered

here to attend the 10th anniversary of the opening of Iceland's 100th parliament.

Additional air mail service was inaugurated between Winnipeg and Bassano early in March by the Canadian Post Office Department, leaving only the Rocky Coast and from west of Galt. This will be the first time that at least a portion of this territory will be linked during the coming summer.

Preparations are being made for taking another decennial census in Canada which is due in 1931. The last one taken five years ago showed 25,000 persons. It was first taken in 1871 and had been taken every ten years since then.

M. M. Robinson, chairman of the committee on the decennial census of the British Empire Games, to be held in Hamilton next August, is interesting. Interviewed aboard S.S. Montcalm recently, he stated that there would be 200 British delegations to the games, but that the meet would be the biggest of its kind Canada had ever known.

SOMEBODY WOULD WIN

According to Canadian traditions of fair play and courtesy, the majority rule, but the rights of the minority are respected. Every elector is given the right to vote as he pleases, and he is expected to vote for the candidate whom he thinks would be the most suitable to represent the constituency in his provincial legislature or in the House of Commons at Ottawa. Threats boycotting, or having votes as measures, which are not tolerated by fair minded, liberty loving Canadians.

But there is in Bow Valley at

least one man (God grant there be no more than one) who would boy-

cott the business men of Hussar because he believes they did not vote

"fair."

This man signs himself "A Hussar Farmer," and his letter is published in this issue of the Bassano Mail.

This man would purchase votes for the Farmer candidate at the price of patronage from farmer customers; he would also claim his right before the Hussar merchants, and threaten to put them out of business if they did not support the man whom the U. F. A. thought should be elected to the Alberta Legislature; he would rob the townpeople of their right to think for themselves and exercise their franchises according to their choice.

Are those kind of tactics fair?

Are they just? The answer is emphatically no. They are cruel, narrow minded, and bigoted; they are unjust and unreasonable; they are unchristian and un-American; they are enemies of Canadian citizenship. Ladies and gentlemen, this is Canada in the year of our Lord 1930. We are not living in times like those of ancient Rome when the heel of the despotic mercilessly crushed those who were weak and helpless, the heel of the state, driver's whip lashed the flesh of those poor miserable creatures who were chained to their labors.

Canada is a country whose citizens enjoy a large measure of freedom; it is a land where the people are free to express their opinions, their own rulers and their own law makers, and every man and woman has a voice in saying who those rulers and law makers shall be.

When election time comes every one of us has the right to our own opinion as to who our government representative should be.

Let us play the game fairly and squarely, with no hitting below the belt basing our judgment solely on the record of the candidates and those things which they represent. And if my friend or neighbor does not favor the same candidate as we do, let us not set up a howl about it and plot his destruction. He is entitled to his own views, and he may be right now we ourselves may be wrong. Let us be as fair as we are.

We believe that the great majority of farmers in the Hussar district are fair minded, and that very few, if any, will agree with "Hussar Farmer."

We are quite sure that Premier Bennett and his supporters will stand by him in his fight against those who did not support the U. F. A. candidate. He would condemn such a narrow minded policy and consider it a disgrace that any of his supporters should even consider such a plan.

OUR DOMINION DAY CELEBRATION

Another Dominion Day celebration was successfully staged in Bassano on June 26.

In taking stock of the day, we find that the size of the crowd was disappointingly small, but the quality of the program was excellent, and many visitors expressed pleasure with the splendid entertainment put on by the band.

The carnival in the evening would have been well attended but for the rain storm which blew up at nine o'clock and drove many people home.

The elimination of the bucking

and roping events was not the cause

of a smaller attendance than last year. The elimination of over

two baseball games was an improvement in the program, and seemed to be satisfactory to most of the people who attended.

Jupiter Pluvius, Plumber

A Scotman in planning his new home left the roof off one room.

A friend asked the reason for this.

"Oh, that's the shower," replied the Scotman.

Archie of Style

Wife (trying on new hats): "Do you like this turned down, dear?"

Husband: "How much is it?"

"Eleven dollars."

"Yes, turn it down."

Communication

Editor The Bassano Mail.

Dear Sir:

The provincial elections have come and gone, and the outcome in general has not surprised the majority, but there is one surprise that is not to be overlooked that can help help us, members of this town, in our daily lives. And this is how they voted at Husar, especially the business section, in no going in more solidly for their neighbor Mr. Schooling, who had resided amongst them and patronized them for many years past. He is a very good neighbor, always ready to help, has a good reputation, sober, steady, good judgment, careful manager, and good farmer, and outside of his nearest friends he only has about three or four in his own town. I am sure, he along with his employees must leave considerable money in Husar in the course of a year, and if the business section turned him down because he supported the party in power, as to Husar, I think it can get along without the farmers, and Husar must realize that it has been built up entirely by the man on the soil, and it would look to me that the farmers might give Husar a hand, the example here was a holder of the Military Cross.

It would not have altered the result for Mr. Mackintosh, but it would have looked a whole lot better if Husar had given more of her influence to her local resident and neighbor.

A HUSSAR FARMER.

Complicated Affair

Mother: "Mary, come upstairs immediately."

Mary: "But I'm all wrapped up in my problem."

Mother: "Tell him to go home."

Prehistoric Crime

Visitor: Knocking over fraternity rowels? "Don't you know rowels are against the law?"

Mother: "Oh, yes, but that one was put up before the law was passed."

Progress of Music Exams in Bassano

It seems quite appropriate since the announcement of results recently in made that a resume of progress in making examinations in Bassano is in order.

Burton Ford is home from the tenth session of Bassano being a centre for examinations conducted by the Associated Board of the Royal College of Music and the Royal Academy of Music.

It might be interesting to know that these examinations are conducted throughout the entire British Empire and that the requirements for each examination are uniform for the colonies and dominions as well as for the British Isles.

The examinations all come from people who hold fine musical reputations in that country, varying from professional organists, pianists, violinists to professors in some of the colleges and Academies, and in some cases these same men have an enviable reputation.

The standard here was a holder of the Military Cross.

Previous to 1921 a favored few journeyed to Calgary for examinations, and some studied there under the late Mr. B. F. Cyderman whose centre was formed in Bassano during the same year. In 1921 more candidates came to Bassano for examinations.

That year ten pupils were successful in the practical exams and four in written examinations; the highest being Lower Division. In 1922 there were fifteen successful candidates in both practical and written exams, and Christine Murdoch was the first in Bassano to pass Higher Division.

In 1923 and 1924 only four Bassano pupils tried examinations, but owing to a few entries from Dundee, it continued to be a centre, and in the latter year Irene Johnston, at present a member of the Bassano School teaching staff, passed Intermediate Grade.

In 1925 eleven entries in all were made with Lower Division, the higher grade tried, this being the first year that the intermediate examination was given for those obtaining between 120 and 129. Florence Playfair passed with distinction and Winifred Playfair was awarded honorable mention.

The next year, 1927, nine were successful, and again Irene Johnston was the highest grade tried. Florence Playfair obtained distinction again in this. Helen Travis and Margaret Beeser passed Primary with honorable mention.

In 1928 the largest entry of the ten years took place when seventeen passed practical and theoretical. Three from the Lower Division succeeded, while Phyllis Plummer was awarded distinction in Lower and Margaret Beeser and Helen Travis passed Primary with honorable mention.

Last year 1929 Gladys Fortney and Eleanor Hollister passed the Intermediate, while nine were successful in all grades from Intermediate to Primary. Betty Plummer obtained honorable mention in the last named.

This year, though only seven Bassano pupils tried examinations, twelve tried the central examination the largest entry by far entering this class of examination. Gladys Fortney passed Advanced, the second to take that grade in Bassano, and Florence Playfair was the third. Both also passed Intermediate. The highest marks awarded any intermediate having tried here, Gladys Plummer won honorable mention in Elementary.

While neither studying nor trying examinations in Bassano this year, another noteworthy report was given last year when Eleanor Hollister, a local girl studying in Calgary, passed Trial Grade with honorable mention.

In spite of the growing of mechanical music it might be noted that the number of candidates entered for the Associated Board examinations throughout the Province was in excess of \$300, over 400 of that sum net coming from Bassano.

The past two years Bassano candidates have tried Toronto Conservatory exams in Calgary, resulting in 1928 with Bonita Johnson obtaining

Miss Florence Smith of the Royal staff, is away on vacation.

Burton Ford is home from Canada.

Harold Ranlum, of Turner Valley, was in Bassano last Monday.

Irvine Young was in from Majorville last Tuesday and took in the Bassano Dominion Day sports.

While Cathro, of the Royal Bank staff at Bowden, came home to Bassano for the holiday on Tuesday.

Miss Muriel Simpson, of Didsbury, spent the Dominion Day holiday in Bassano.

Alban Johnston, of Vulcan, was visiting friends in Bassano the early part of this week.

Mr. and Mrs. Blash, of Didsbury, visited friends in Bassano last Sunday.

The Scott-Sandhouse airplane will compete in the air races at Redfern Saturday.

W. King is in Edmonton this week marking papers in the departmental school examinations.

A number of Husar people attended the Dominion Day sports in Bassano last Tuesday.

Mrs. Marie Gronberg left last Friday to spend her vacation at her home in Camrose.

W. J. Wheeler, recently of the Royal staff here, is now in the employ of General Motors in Calgary.

Misses Beatrice and Grace Hatch of Majorville, were in Bassano for the Dominion Day celebration.

Mrs. Ted Tosh, of Regina, and Mrs. Chas. Tosh, of Grande Prairie arrived in Bassano Wednesday to attend the funeral of the late Geo. H. Travis.

Mr. and Mrs. E. N. Stiles, who for the past few years have been living in Husar, have moved to Lethbridge where Mr. Stiles is now employed as a dispenser in a drug store.

Following the death of Geo. H. Travis, W. J. Redmond has been appointed to take charge of the Bassano post office until the official appointment of a postmaster has been made.

First Executive: "Did you enjoy your vacation?"

Second: "Yes, but there's nothing like the feel of a good desk under your feet again."

Three's a Crowd

"Porter?"

"Yes, madam, what is it you wish?"

"I just found two strange men in my apartment, and I want you to take one of them out."

CARD OF THANKS

We wish to thank our many friends and neighbors both in Husar and Bassano, for the great help and kind ness shown our little boy and our family during the recent loss of our dear son, whose death has caused our sincere thanks for the many floral tributes and the offers and assistance received on every hand, which, in a large measure, have helped us to bear our sorrow.

MC. and Mrs. L. M. Clark and children

NOTICE

NOTICE is hereby given that, in accordance with the provisions of The Irrigation Act, the applicant Company has filed the necessary documents with the Commissioner of Irrigation, Sections 13 and 15 of the said Act, with the Commissioner of Irrigation, at Calgary, Alberta.

The applicant Company applies for the right to divert surface water from the Bow River and to hold the same in the quarter of Section 39, Township 17, Range 17, West of the 4th Meridian, for industrial purposes, and for the right to construct the necessary works as shown by the plans and specifications filed, to enable the water so diverted to be used for the said industrial purposes, in the Company's works.

The unclaimed lands are also affected by right of way for the proposed works, viz.: the Southwest quarter of Section 39, Township 17, Range 17, the South half of Section 35, and the Southwest quarter of Section 26, in Township 17, Range 18, West of the 4th Meridian.

Dated at Calgary, Alberta, this 17th day of June, 1930.

WORLD HAPPENINGS BRIEFLY TOLD

On June 24, the King and Queen received the delegates to the Imperial Press Conference, in the throne room at Buckingham Palace.

British Columbia expects to benefit from the new Australian tariff just introduced in the Commonwealth House, extending a British preference to lumber.

Mr. Bennett Scott, the song composer who "Take me back to the old country" sang by so many all over the world, died at home at Lorraine Mansions, London, England.

Mr. and Mrs. Joe V. Illeeneur, of Detroit, were buried to death when their airplane fell at the municipal airport, in Toledo, Ohio, and burst into flames.

President Hoover has approved transfer of the obsolete submarine P-12 from the navy to the U.S. shipping board, which will charter the craft to Sir Hubert Wilkins for North Pole exploration.

F. E. Beattie, said 50, an account of the Bank of Hong Kong and Shanghai, at Shanghai, disappeared from the "Empress of Russia." It was reported on the steamer's arrival at Vancouver where he was a passenger enroute to Seattle for vacation.

Vincent Massey, retiring Canadian minister to the United States, who delivered the annual commencement address at the University of Michigan, Ann Arbor, was awarded an honorary degree of Doctor of Laws.

L. R. McGregor, new Australian trade commissioner to Canada, arrived at Victoria recently from Sydney with his wife and two children. He is particularly anxious to introduce Australian wines to Canada.

Switzerland Is Prosperous

Has Population Of Over 4,000,000 and People Are Good Workers

Switzerland, which has an area of only 19,900 square miles, has a population of nearly 4,000,000, which it has risen from 3,200,000 in 1930. Small as the country is, it has 30 towns of over 10,000 people. While the population has increased, the mountain regions have decreased. The natural growth of Switzerland is the more remarkable for the fact that one-fifth of the whole territory is mountainous and unproductive land. "It is the development of native raw materials and yet she has 600,000 persons engaged in productive industry. In fact, it is not too much to say that if all the world worked as well as effectively as Switzerland, there would be a happier place. Switzerland may not be war or rumors of war.

Canada's Military Force

Consists Of 401 Officers and 1,067 Non-Commissioned Officers

Canada's permanent military force at the present time consists of 943 all ranks, of whom 401 are officers and 1,067 non-commissioned officers. At headquarters in Ottawa there are nine naval officers, forty-nine military officers and thirty-one other ranks. There are also at headquarters a total of 104 other ranks.

Four hundred and forty-three civilians are employed of whom 400 are permanent.

The cost of administering the headquarters totals \$1,425,311 annually.

Exhibit For Poultry Congress

A collection of officially selected poultry specimens, including fifteen birds, inspected and passed by Professor Wood, of Winnipeg, has been sent to Ottawa, where it will be linked up with the Canadian consignment of live hatching birds for the world's poultry congress. The collection includes some of the choicest specimens of poultry to be found in the whole Dominion.

Many Accidents Caused By Neglected Cars

Carelessness Allows Defects To Develop In Mechanical Parts

Automobile owners in the United States who neglected to keep their cars in good condition were responsible for five thousand of the 10,000 road fatalities during the last calendar year. This estimate is made by the framers of the report recently submitted to the National Conference on Street and Highway Safety at Washington by its committee on the maintenance of motor vehicles. To learn that fully fifty percent of the traffic fatalities recorded in 1930, are actually traceable to lack of proper care of the car is an important disclosure. The members of the committee into causes of motor accidents have convinced its members that stricter official inspection of all automobiles is urgently needed.

Franklin D. Roosevelt charged that because of improper maintenance defects are allowed to develop in vital mechanical parts of a car; brakes and steering gear are allowed to become defective; tires are dropped off; batteries, horns, windshield wipers, rear lights and headlights uncared for become ineffective.

A steady increase in driving speeds in the last few years has served only to increase the hazards created by drivers who do not know how to drive a car and permit them to be operated when they are unfit to be driven on public highways. The committee recommends legislation that will enforce periodic inspection of all cars. A driver's license is not now taken. It suggests that in the case of old cars that have been resold several times a certificate of inspection should be required when drivers' licenses are issued.

Pulsating Stars

Theory Advanced That Certain Stars Do Not Rotate

A theory that certain stars do not rotate is presented by the American Association for the Advancement of Science at the meeting of the Canadian Manufacturers' Association, held in Montreal. Dr. Ross Gunn, of the Naval Research laboratory, These non-spinning stars are those which pulsate, that is, which expand and contract periodically, with the result of the habit of enlarging their diameters millions of miles. They beat like vast fairy hearts.

One class of pulsating stars, the Cepheid variables, are known to the sky, that is, they are easily recognizable to amateur astronomers to determine the vast distances of space. Dr. Gunn's theory comes from study of magnetic fields about stars, especially those about the pulsating suns.

Working For Grain Show

C. Tice, secretary of the British Columbia public committee of the World's Grain Show, reports that a large district committee, covering the community of Victoria on Vancouver Island, is working successfully in securing exhibitors. These exhibits will cover a number of classes and will do credit, no doubt, to this district when the time for competition arrives.

Canada's Pioneer Teacher

Madame Hebert Was Also Wife Of Canada's First Farmer

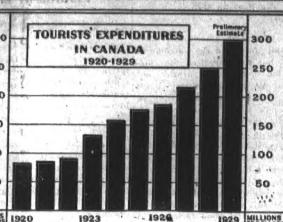

How many know the name of Canada's first school teacher? It was Madame Hebert, wife of Canada's first farmer and who in the days of her life resided and taught school in the city of Quebec near the site of the present city hall.

Three centuries since began to teach the children of the new settlement of New France. St. Lawrence, there were nearly ten million and a half pupils enrolled in the educational institutions of the Dominion — approximately one-fourth of Canada's total population. Yearly expenditure on primary day schools under public control, without taking into account other educational institutions, private and public, amounts in the aggregate to about \$129,000,000 a year, while teachers' salaries amount to another \$100,000,000, making a total of \$229,000,000.

It is interesting to call up the "shade" of Madame Hebert, but the experiment might be tried of white paint on the window panes as far as 1920, and it will be found that during this ten-year period, 1920-29, inclusive, tourists from abroad within the last ten years are estimated at an amount which falls only a few thousand dollars short of equaling Canada's immense outlays for war and demobilization.

Such a figure is almost staggering and it is difficult to find comparisons enabling us to realize its immensity. Perhaps the most startling comparison that could be made is to place this sum alongside the enormous outlays that Canada was called upon to make in connection with the Great War. According

TEN YEARS' GROWTH OF TOURIST TRADE

The rise in the value of Canada's tourist trade during the last ten years has been little short of phenomenal. Estimates of the expenditures made by the Dominion by tourists in Canada during the past ten years as far as 1920, and it will be found that during this ten-year period, 1920-29, inclusive, tourists from other countries within the last ten years are estimated at an amount which falls only a few thousand dollars short of equaling Canada's immense outlays for war and demobilization.

Golf Tournament Final Will Be Played on Sunday

Play scheduled for Last Sunday was
Postponed because of Muddy
Roads

The final round of the district tournament in the City of Calgary Men's Open Cup competition will be played on the Bassano golf links next Sunday afternoon, July 5.

The final round was to have been played here last Sunday, but muddy roads prevented the Brooks golfers from reaching the course.

With two rounds of the tournament completed, one at Brooks and one at Gleichen, Dr. W. F. Keith, of Bassano, is in the lead, and Mableton, of Gleichen, second. He is seven strokes behind Keith, and the others are trailing him, some by a number of strokes, too far behind to be in the running.

PRIZE WINNERS IN
DOMINION DAY SPORTS

(continued from front page)

CARD OF THANKS

We wish to express our heartfelt thanks to all our friends for their great kindness and sympathy in our bereavement, and also thank them for the beautiful floral tributes.

R. A. Travis and Family,
Mrs. M. Lee and Daughters.

ONE GOOD RECIPE
MAKING A COOK FAMOUS

No pie ladies more "oh's" and "ah's" than a juicy cherry, raspberry, or blueberry pie with a crust that "melts in your mouth." Yet so many housekeepers say that such pies are their despair because they do not know how to make them. This is much in the way this pie is put together. However such a pie should never be attempted without adding either flour or quick-cooking tapioca to "hold in the juices."

For a blueberry or blue-
berry pie, prepare four cups of
the cleaned, fresh fruit. Add three-quarters to a cup of sugar and four tablespoons of flour. Arrange in a greased baking dish and top with pastry. Bake in a hot oven of 425 degrees F. for 20 minutes and then reduce the heat to 350 degrees F. and bake for twenty minutes longer.

WIT AND WISDOM

It costs little to have the ears pierced. Any jazz band will do for nothing.

The life of an impostor is a very uninteresting one, says an ex-con. It is just one sham thing after another.

A correspondent wants to know if an amateur can make good photographs. The answer is in the negative.

A well known racing motorist is described as a man of parts. Spare ones?

A writer on success says that people should notice little things in life. Forgers, of course, often pick up a piece of paper and make a note on it.

Thieves forced open a safe in an Edinburgh shop with a pair of scissors. Shear genius.

An author states that he always does his hardest work before breakfast. Getting up, for instance.

A reverend without a bevy of pretty girls is never a success, says a producer. It takes a lot of Misses to make a hit.
